

Vicky Anderson - Dark Light Photography

I'm a photographer specialising in alternative portraits, creative shoots, events, and cosplay, with a focus on bringing bold ideas and unique personalities to life. My approach is relaxed, fun, and collaborative—I aim to create a space where you feel comfortable, confident, and free to express yourself.

I'm PVG checked and have experience working with neurodivergent individuals, ensuring sessions are supportive, flexible, and tailored to your needs. As an LGBTQ+ ally, I'm committed to creating an inclusive, welcoming environment for everyone in front of my lens.
